

The Antimicrobial Advocate

Nebraska ASAP Newsletter

Issue 1 Volume 1

Welcome to the Nebraska Antimicrobial Stewardship Assessment and Promotion Program Newsletter!

The goal of this newsletter is to share timely information related to antimicrobial stewardship practices with facilities throughout the state.

What you can look forward to in the Nebraska ASAP Newsletter...

- Clinical updates – educational pearls, impactful publication review, vaccine updates, seasonal infections, newly approved antibiotics, CDC/NE DHHS Health Alerts, and more!
- Meet the stewards! NE Antibiotic Stewardship Practitioner Spotlight
- Practice Guidance – protocols, guidance documents
- Patient Case Examples
- Educational opportunities – other newsletters, national webinars
- Nebraska ASAP Resources

[Click Here to be added to the distribution list now!](#)

Nebraska ASAP is funded by the [Nebraska DHHS HAI/AR](#) Program through a CDC Grant.

The goal of Nebraska ASAP is to promote the effective use of antimicrobials and improve patient outcomes throughout the state of Nebraska by collaborating with local clinicians, pharmacists, infection preventionists, and other health care workers to establish effective antimicrobial stewardship programs.

Visit our website to learn more: [Home - ASAP \(nebraskamed.com\)](http://nebraskamed.com)

What can Nebraska ASAP assist with?

- Antimicrobial stewardship program development
- Alignment with CDC Core Elements
- Answer ASP questions/troubleshoot issues/provide 1:1 guidance
- Assist with tracking and interpretation of antimicrobial use data, including the NHHSH AUR Module
- Educational opportunities, including the annual Nebraska Antimicrobial Stewardship Summit

Meet our Team!

The Nebraska ASAP team consists of ID pharmacists, ID physicians, infection preventionists, database analysts, and administrative assistants with decades of combined experience in antimicrobial stewardship – all available to help your facility!
